

Alternative Delivery System Courses – ADS courses involve non-traditional instruction for up to 80% of the course content. Typically, no more than five class meetings will be required for each course. Computer and Internet access along with an e-mail account are mandatory. Please read the Primary Delivery Method Column of the ADS Class table carefully before registering for a course. Students may be required to come to campus to view course content at the college Library or Media Center. Students may need to be familiar with WebCT for some courses. Additional software (MS Office XP, Quick Books, etc.) or free plug-ins (Adobe Reader, RealPlayer, etc.) may be required. Check with the instructor for specific course requirements.
