

ACCT 311 – Intermediate Accounting 1

Credit Hours: 3

Scheduled hours per week

Lecture: 3

May also be taught in ADS or online format

Catalog Course Description: Review of accounting principles, practices, and procedures at the intermediate level. This course addresses the theory and practices of accounting that are required as entry to the profession.

Pre-requisites: Accounting 201, Principles of Accounting I; Accounting 202, Principles of Accounting II, (Student should have a minimum grade of “B” in Accounting 201 and Accounting 202), and Math 126, College Algebra

Co-requisites: None

Course Learning Outcomes: The primary objectives of this course are to acquaint the student with an overview of accounting at the intermediate level from the prospective of the professional accountant. The student will be introduced to analytical and evaluative methods and decision-making techniques available to accountants and managers in applying generally accepted principles to financial reporting.

Topics to be studied: Topics include financial accounting standard setting, the accounting cycle, balance sheet and notes to the financial statements, the income statement, the statement of cash flows, the revenue/receivables/cash cycle, complexities of revenue recognition, inventory and cost of goods sold, investments in noncurrent operating assets: acquisition, utilization, and retirement.
