

As a follow up to the mandatory pre-bid meeting for RFQ FY18-001 please see the contact information provided for the Hansentek Spark Arrest System.

Robert White Industries, Inc.
443 Campfire Curve
Chaska, MN 55318
PH (952) 361-0833
www.rwii.net

As noted in the meeting, all follow-up questions should be received no later than the close of business 4:00PM September 6th.

We also ask all vendors to list on their pricing page the cost for repairs. We would like to see an hourly rate for labor and the percentage of mark up on all parts and equipment. It is our intent to use the vendor that we select for services throughout the contracted period for repairs and additions under \$10,000.

Thank you for your interest in working with West Virginia University at Parkersburg.
